A little about me: I love design, teaching, culture, languages, music, and travel. I hold an American passport, but have spent the majority of my life on foreign soil. I come from a family of artists and musicians. Chinese is the 5th foreign language I have studied, and hopefully the one I can finally master. I love teaching and watching people learn. I am eager to continually find ways to blend my talents in teaching and graphics with ministry and missions.
